NEW ZEPPE- LIN AIRSHIP.

Paris, May 12.—A dispatch from Monzell, on Lake Constance, says that Count Zeppelin's airship No. 4 is now completed and ready for its first trial. The new airship is the largest of its kind yet constructed. It measures 135 metres in length and thirteen metres in diameter. Between the two huge baskets attached to the airship the Count has had two rooms—a study and a bedroom—constructed in bamboo for himself and his friends. Besides this novelty hammocks will swing between the baskets and the study for the accommodation of the engineers and the workmen during a long voyage. The Count announces that his first voyage after a few preliminary trials over lake Constance will be to Frankfurt and back, and if this trip proves a success he will pay "a flying visit" to the Kaiser in Berlin.

CONSUMPTIVE QUARANTINE.

San Antonio, Texas, May 12.—Agitation against the practice of certain Northern and Eastern cities have followed of sending consumptives into Texas with only a few dollars in addition to their railroad ticket has resulted in Kendall County's establishing a quarantine against consumptives. State Health Officer Brumby last year suggested such a quarantine by the state and Bexar county, in which San Antonio is situated, has several times considered enforcing it.

At present the hotels and boarding houses of this city refuse to take sick people, and it is useless for those afflicted with tuberculosis to come to San Antonio unless they have the intention and the money to go into a hospital outside of the city.

A CLEAN LUXURY

GOLD-CROWNED TOOTH.

Believed to Be From Mouth of
Mrs. Gunness.

Laporte, Ind., May 12.—A gold-crowned tooth has been found in the debris of the Gunness home. It is believed to have been in the mouth of Mrs. Gunness.

The "mining operations," which have been promised by Sheriff Smutger, on Tuesday, July 14, there will be several days, started in early morning at the Texas State Fair grounds, at day in the ruins of the Gunness home.

Louis Schultz, who was met by Sheriff Smutger to a meeting of the cellar, complex bent and began work. A surgical instrument has been found in the cellar, and in addition, two of a surgical death mask, two of a surgical death mask, two of a surgical death mask.

Additional evidence to the contrary it is believed the dirk may have been the weapon employed in the series of murders which brought notoriety to the farm. An expert hand could easily have slipped the snake-like weapon between the ribs of the victims and penetrated the hearts. An interesting sidelight on the character of Mrs. Gunness has been furnished by Mrs. C. O. Lapham of Laporte, who for six years was a neighbor of the woman.

Mrs. Lapham says that on the only occasion in which she called upon her neighbor her hostess sat near an open window. A strong breeze through the opening blew aside the folds of the loose house dress which Mrs. Gunness was wearing and revealed about her body a wide belt containing pouches of various sizes and sheaths which seemed to be constructed for knives.

HEAD NEARLY SEVERED.

Jacob Hans Meets With a Horrible
Accident at Houston.

Houston, May 12.—With his head almost cut off in an elevator shaft in the Paul building, Jacob Hans, an elevator electrician, was carried to the Baptist sanitarium with no hopes held out for his recovery.

Secures Favorable Report.
Washington, May 12.—Senator Bailey secured a favorable report from the senate finance committee on the bill restoring "In God We Trust." The bill was favorably reported to the senate.

Via Suez Canal.
San Francisco, May 12.—Battleships Alabama and Maine will be detached from the Atlantic fleet and make the voyage to New York via Suez canal.

Twenty Buildings Burn.
Tonopah, Nev., May 12.—Fire destroyed twenty business houses. Loss is \$150,000.

BANQUET TO

Elks Are to Give Banquet

Dallas, Tex., May 12.—The Elks of Dallas will be a very elaborate evening of the grand lodge and their members will be planned for the Mexican dinner and barbecue at the Texas State Fair grounds, at day in the ruins of the Gunness home.

The grand court of honor, at Main and Akard streets, in the heart of the business section, costing \$30,000, is nearing completion. The complete programme for the week has not as yet been completed.

CONSPIRACY CASES.

Second Series of Pennsylvania State
Capitol Transactions Go to Trial.

Harrisburg, Pa., May 12.—The second series of conspiracy cases growing out of the contracts for furnishing of the new state capitol were called for trial Tuesday in the Dauphin county court. They involve six men. They are Congressman Cassell of Marietta, head of the Pennsylvania Construction company, which supplied about \$2,000,000 worth of the metallic furniture for the building; Joseph M. Huston, Philadelphia, architect of the capitol and designer of its furniture; William Synder, Spring City, former auditor general; William Mathues of Madia, former state treasurer; James Shumaker of Johnstown, former superintendent of public grounds and buildings, and Frank Irvin, traveling auditor in the auditor general's department.

Snyder, Mathues and Shumaker were convicted in the first conspiracy trial of defrauding the state out of about \$9,000 in a bill for wooden furniture.

In the cases now up the charge against the six men is conspiracy to defraud the state out of \$5,000 in a bill of \$17,789 for metallic filing cases and metallic furniture.

Active and Unduly Disturbed.
New York, May 12.—Stock dealings Tuesday were active and widely disturbed.

SAYS IT IS A TRUST.

Lightfoot So Characterizes the American Book Company.

Austin, May 12.—Assistant Attorney General Lightfoot has filed with the governor his report regarding the investigation he had recently made as to the affairs of the American Book company. He reaches the conclusion that this company is a trust. This is the result of the investigation ordered made by the governor and textbook board as to whether this company was a trust or not. The report character-
ized the American Book company as being in the same category with the United States Steel corporation, Standard Oil company, American Packing company and International Harvester company. The award of the contract for furnishing Maury's geography had been given to this company and held up pending this investigation, the governor declining to sign the contract. Mr. Lightfoot alleges that out of a total of 3,289 publications the American Book company controls 2,000 of them.

Mr. Lightfoot makes an additional statement calling attention to the American Publishers' association, which controls the following concerns who submitted bids to the board: Charles Scribner's Sons, D. Appleton & Co., Houghton, Mifflin & Co., the Mac-
millan Co., Little, Brown & Co., Long-
man's Green & Co. In 1904, he says, this association was declared to be unlawful by New York courts, and in 1907 it made some modifications in its bylaws, but nevertheless the organiza-
tion and membership are maintained. "I also discovered," says Mr. Light-
foot, "that during my investigation of the connection between the American Book company and University Pub-
lishing company, that very close rela-
tionship existed with Newman & Co., who were awarded the contracts for language and grammars. Newman & Co. and the University Publishing com-
pany occupy the same offices at 27 West Twenty-third street, New York. They have the same telephone num-
ber. J. W. Manson was, until recently, secretary and treasurer of both com-
panies and at the same time a stock-
holder in each company until Jan. 18, of this year, when he sold his stock in the University Publishing company in order to be qualified to make the oath required by the textbook board. He sold his stock to M. C. Dukeshire, his brother-in-law, who resides in the same house with himself in Brooklyn. Many of the books submitted in Texas were submitted by other publishers."

Mr. Lightfoot says that the most important matter outside of the invest-
igation called to his attention was the book concern in evading the state laws in various states. He was checked by agents polling, and then dividing the corporate authorizes. Lightfoot says: "The bring such suits, that the state advised that I am in a hurry to due time file suits for the law or of such contracts as in his, or collusion."

Mr. Lightfoot further says: "We have therefore considered it proper to levy in this report for your excel-
lency of yourself and the textbook board for proper. The operations of some of these parties in other jurisdictions have been reprehensible, and then the are far from commendable and will meet with your excellency's condem-
nation."

No cause has existed of deeper interest than our public schools.

"Next to the importance of the selection of proper teachers is the selection of textbooks. The founders of this state bequeathed to the cause of education a domain equal in extent to an empire. No people ever bestowed a more munificent endowment upon unborn generations or left to posterity such a heritage, a perpetual guar-
antee of enlightenment throughout all the generations of the earth."

"The fact that some publishing houses have not scrupled to employ in other states the most questionable means of securing adoptions of their books, methods that have resolved the selection into a species of favoritism that eliminates merit will chal-
lenges the careful consideration of your excellency and those interested in safeguarding the welfare of the children of Texas. When such in-
fluences are employed in the selection of books and demoralizing agencies are thus directed at the very founda-
tion of educational institutions and are thereby brought within impression-
able range of the child's mind, well may it behoove the constituted author-
ity to impose a strong arm into a situation fraught with such consequen-
ces to the future of the state."

BURGLAR'S BIG BOOTY.

Jewelry Store and Pawn Shop Entered and Considerable Loot Secured.

Little Rock, May 12.—Burglars entered the jewelry store and pawn shop of William Bell, in the heart of the business district here, and carried away over \$2,000 worth of booty, consisting of revolvers and jewelry. The burglars carried their loot away in grips stolen from the stores, which were so heavily loaded a trail of jewelry was left behind.

COMMISSIONERS' COURT.

Tax Collector's Report—Payment on Koppe Ferry Bridge—Other Matters.

The county commissioners held a busy session yesterday.

E. Reed was declared a pauper and allowed \$2.50 per month.
A fine in a pistol case against G. W. T. Lawrence was remitted in consequence of Lawrence having given valuable information in connection with the murder of Gabe Evans, colored, near Edge recently.

Bill of R. M. Nall for feeding prisoners for quarter ending May 11, was allowed; also accounts of County Superintendent T. W. Parker and Tax Assessor J. H. McCullough for official services.

The sum of \$9000.00 was ordered paid the contractors for the Koppe Ferry bridge.

The quarterly report of Tax Collector Walter Wiprecht for quarter ending April 30, was approved showing collections of state taxes amounting to \$573.68 and county taxes amounting to \$868.57.

FOR COUNTY SUPERINTENDENT.

The Eagle directs attention to the announcement of Prof. T. W. Parker for re-election to the office of county superintendent of public instruction of Brazos county, subject to the democratic primaries July 25.

Prof. Parker is a native Texan, and his mother and father were among the early settlers of Bryan. They were married in this city and resided here for several years, afterwards moving to southwest Texas. Prof. Parker graduated from the Sam Houston Normal Institute at Huntsville, and afterwards took special work in the state university at Austin. He began his school work as a teacher in the country schools of Gonzales county, afterwards served as principal of the Waelder High School in the same county, and principal of the Port Lavaca High School. Prof. Parker resigned the latter position in 1904 to accept a place in the Bryan Graded schools, with which he was connected until made county superintendent. Prof. Parker has also had experience as an instructor in summer normals and institutes. He is a thorough school man and devoted to his profession.

Prof. Parker was elected county superintendent by the Brazos county commissioners count last September, when the new law went into effect, and has held the office less than one year. Notwithstanding this he has thoroughly acquainted himself with the schools and teachers of the county and has given to the duties of the office undivided and efficient service. He has visited all parts of the county, and worked unrelentingly and impartially in the interests of the schools. His name is presented to the voters of the county with pleasure.

COMMANDRY MEETING.

Ivanhoe Commandry Knights Templar held a meeting yesterday afternoon and Prof. Weber of College was elected to receive the degrees of the order. E. H. Terrell of Navasota and R. P. Siddall of Anderson were here to attend the meeting.

6:30 p. m. Graduating Dress Parade
9:30 p. m. Final Ball

THE REVIVAL.

The service in the tent yesterday morning was distinguished by a spirit of earnest devotion. The prayers were more fervent and the singing was more spiritual than heretofore. Many of the congregation brought their bibles. The subject of Dr. Boen's sermon was "The Christian Armor" including the helmet of hope, the shield of faith, the breastplate of righteousness and the sword of spirit, which is the word of God. It was a strong soul stirring appeal to the christian soldier to make the best possible use of the armor, both defensive and offensive and to the alien to enlist under army of the king.

Last night Dr. Boen discussed the method of rightly dividing the scripture, mentioning first the general division into the Old and the New Testaments, and then pointing out the differences among the 29 books of the Old Testament, some being historical others biographical, poetical, didactic and prophetic. In the same way he classified the books of the New Testament into the four narratives of the life and works of Jesus, the epistles to the churches and to individuals and the book of Acts and of Revelation, each of which has characteristics peculiar to itself. One very interesting feature of the evening service was a duet, "My Father Knows," by Mrs. Martin and Prof. Parnell.

At 6 p. m. yesterday three converts were baptised in the Baptistry at the Christian church.
Dr. Butler will preach today at the morning service—10:30 a. m.

FARMERS' CONGRESS DATES.

The executive committee of the Farmers' Congress has fixed the dates for the next meeting at College on July 7, 8 and 9. E. W. Kirkpatrick of McKinney has succeeded Prof. J. H. Connell as president of the Congress since the election of Prof. Connell to the presidency of the Oklahoma A. and M. College.

A SINGER IN THE HOME.

Let me place one with you on trial. If there is a prospect that you wish to buy a machine. I guarantee prompt and reliable repair work. Residence phone 105; office at Mrs. B. White's. T. A. Satterwhite. 11

By authority of the Board of Directors bids will be received in their rooms in the Mess-Hall at nine o'clock Wednesday June 10th, for supplying the Mess-Hall with beef for the session of 1908-9. Bids will be received for the entire beef carcass, less the liver and one-half the neck. The minimum weight for a dressed carcass to be 350 pounds. No stags or bulls to be slaughtered. Also for choice cuts of beef that have been inspected and approved by a United States Government Inspector. Grass fed beef from the opening of the session in September to the first of January. Corn fed beef from January first to close of the session in June. The right is reserved by the College to furnish, subject to contract price, such beef as it may have on hand from the College herd. Bids will also be received for furnishing pork during the above session with the same reservation for the College to furnish hogs that they may have on hand, at the contract price. A certified check for \$500 must accompany each bid. A bond of sufficient amount will be required of the successful bidder to compel faithful compliance with the contract. The right is reserved to reject any or all bids.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.
It was this fact that first correctly led Dr. Shoop to the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.
For stomach distress, bloating, biliousness, bad breath and salivary complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

REFUSES SECOND PLACE

Governor Hughes Says That He
Cannot Accept

VICE PRESIDENTIAL SEAT.

New York Executive Asserts That if
His Party Honored Him With Nomination and the Ticket Triumphed He
Could Not Serve.

New York, May 12.—Governor Hughes will not accept the nomination for the vice presidency. This announcement was made in a letter from the governor to General Woodford.

In his letter Governor Hughes says: "For reasons which are controlling and which leave no room for discussion and though I be deeply sensible to the honor thereby conferred, I would not be able to accept and could not in any contingency accept, the nomination for the vice presidency, and even were I elected I could not serve."

HESTER HANDED ONE.

In This Instance It Was a Baby Instead of a Baseball.

Waco, May 12.—W. E. Hester, pitcher for the Houston team, while coming down from Fort Worth on the noon train Tuesday stopped at Hillsboro. A lady asked him to hold her baby till she met a friend. The woman never returned. In a bandbox a note was found after the train left asking that whoever got the child adopt it or give to some one. The child's name was given as Edmund Winters. Hester has the baby at a hotel here.

Heating Iron Explodes.

Stephenville, Tex., May 11.—The residence of Dr. L. H. Miller was destroyed by fire, caused by the explosion of a heating iron. Ladies were experimenting with a new gas iron when the accident occurred. They were more shocked than hurt. Dr. Miller had just moved into the home.

Cheered at Reno.

Reno, Nev., May 11.—When Rear Admiral Evans' car Sunset waited at the Southern Pacific depot more than 2,000 people stood at the platform and cheered the veteran. He acknowledged the greeting by raising the curtain and bowing his thanks.

Trial Begins Wednesday.

Fort Worth, May 11.—Trial of Ike S. Knight, charged with murder of Ed Harmon and wounding of two officers comes up Wednesday.

Seven Convicts Taken.

Waxahachie, Tex., May 11.—Seven convicts were taken from here Monday to Huntsville penitentiary.

CATCHING AN ALBATROSS.

The Bird Enjoys the Sport and Is Landed Uninjured.

With the birds settling by the dozen it is easy enough to capture specimens for examination without causing injury or pain. Any sharply barbed hook is altogether superfluous. The albatrosses absolutely enjoy the excitement, and the sport obtained is not without a novel interest.

A small metal frame should be made in the shape of a hollow triangle attached to 100 yards of stout line and kept afloat by a good sized piece of cork. The sides of the metal frame are then covered with bits of fat pork, the hard skin of which is securely bound thereto. The bait is thrown astern, and the line is slowly paid out.

Presently a great albatross swoops through the air, impelled by curiosity to investigate the nature of the floating morsel of food; numbers of birds follow suit, each one made bold by competition, and then the sport begins.

At this moment additional line must be given in order to compensate for the progressing of the ship, thus enabling a bird to seize the desired food. With a sudden rush the supreme effort is made. Once or twice the attempt proves ineffectual; but, rendered bold by greediness, a final grab finds the curved bill securely wedged inside the apex of the triangle, as the fierce tugs on the line quickly indicate.

Steadily the haul is made; hand over hand, until a helpless albatross is bodily lifted on to the poop in an absolutely uninjured condition. A slackened line enables the bird to escape, and if scattered wits permitted such an effort sudden flight would obtain release.

The other birds invariably commence to attack a wounded comrade, a steady pull being required, even if the line does cut your hands, to save it from its friends. Once safely on deck the mandibles are tied together, for otherwise the bird throws up an oily fluid, a disagreeable habit possessed by all the tribe.

Subject to this precaution it may wander gravely around to survey the new horizon of life. The large eyes gaze with a truly pathetic confidence expressive of anything but fear.

It is a strange spectacle to witness the inquisitive bird solemnly waddle to and fro among the equally inquisitive human beings around. True, it objects slightly to the process of measurement, pecking sharply by way of protest, but a gentle box on the ear soon induces submission as the dimensions are rapidly noted, the albatross meanwhile reposing affectionately in the arms of the second officer.

The specimen happens to be a small one, but the wing expansion from tip to tip is less than ten feet, the extreme length of body is three feet six inches and the formidable bill measures upward of four inches.—Cornhill Magazine.

GUS SHAW FOR GOVERNOR

Movement to That End Is Said to Be Under Way.

Dallas, May 12.—Business men and prominent farmers, it has been ascertained, have a movement on foot having for its purpose the nomination of Hon. N. A. (Gus) Shaw as head of the state Democratic ticket. Mr. Shaw, who is a resident of Texarkana, successfully conducts a plantation of over 10,000 acres fifteen miles north of New Boston, Bowie county. He has accumulated a very large fortune on his place, raising considerable long staple cotton each year. He also grows much alfalfa and corn, and is noted as a breeder of registered cattle, horses, hogs and jacks. Mr. Shaw has made his large fortune exclusively along these lines since moving to Texas from Mississippi, soon after the close of the Civil war.

Gus Shaw, as his friends call him, has never held a public office, except as a member of the legislature some years ago. He is a prominent member of the Farmers' Union and in the prime of life.

If Mr. Shaw is nominated he will have the distinction of being the only farmer governor of Texas, with the exception of Governor Ross, in over fifty years.

He is opposed to statewide prohibition, but a strong advocate of local option.

TAFT AND LYON.

First Endorsed for President, Latter for National Committeeman.

Sherman, Tex., May 12.—At a meeting of the Republican Congressional convention of the Fourth district, the following delegates to the national convention were elected: C. A. Burke, Van Alstyne, and W. N. Griffin, McKinney, delegates; B. F. Akdridge, Wolfe City, and Dr. R. H. Crabb, Leonard, alternates. O. F. Johnson of Sherman was chosen presidential elector. The delegates were instructed to vote for Taft for president, or with the majority of the Texas delegates. Lyon was endorsed for national committeeman and President Roosevelt's administration was endorsed.

Valuable Papers Stolen.

Fort Worth, May 11.—Officers of National Livestock Commission company of North Fort Worth found the big safe open and rifled. The robbery was committed by experts or some one familiar with the office, as the combination was used. There was no money in the vault, but a number of valuable papers were stolen.

Holmes & Parker

JNO. C. VICK MILLING FEED, GRAIN

The reason home ground meal is giving such satisfaction to all who have tried it is corn is classified into four reductions, viz: Corn starch, corn flour, bolted meal, and bran. Corn starch and corn flour is the nutritious part of the grain which is extracted. Bolted meal is the flint part. Home ground meal you get it all and get it fresh. We make our own chops from best shelled corn in car lots. The advantage in freshness and purity is obvious without further comment.

Bring your corn and have it ground into chops or meal, and let me sell you feed stuff.
